

# PULMONARY FUNCTION LAB

Complete Pulmonary Test | Six-Minute Walk Test | Simple Home Oxygen Test

## A REFERRAL MAY BE NECESSARY IF YOUR PATIENT IS:

### *Experiencing pulmonary symptoms such as:*

- Abnormal CXR
- Asthma
- Chronic bronchitis
- Continuous cough
- COPD
- COVID-19
- DOE
- Emphysema
- High-risk medication use
- Hypoxemia
- ILD
- Nicotine dependence
- Recurrent pneumonia
- SOB
- Wheezing

### *Diagnosed with COPD or has an existing diagnosis*

- Pulmonary function testing can:
  - Identify severity of COPD
  - Track pulmonary health with annual tests
  - Assess medication or treatment effectiveness
  - Assess a change or increase in symptoms

### *Prescribed Amiodarone*

- Pulmonary function testing at time of medication prescription, despite dosage, can provide baseline data (recommended by ATS, AAFP and NIH).
- Repeat if pulmonary symptoms present

## BENEFITS OF PULMONARY FUNCTION TESTING INCLUDE:

- **Same-day results:** Preliminary interpretation software offers same-day preliminary data.
- **Pre-op risk control:** Provides assessment for risk of pulmonary complications.
- **Cardiac/pulmonary rehabilitation assessment:** Checks for improvement before and after rehabilitation.
