

Feb. 1, 2023

Dear valued referring provider,

Enloe Medical Center's General & Vascular Surgery Clinic has made some changes that will directly impact referrals, and we want to provide you with the most up-to-date information.

Denis Westphal, M.D., has retired from our clinic and is now working with the Enloe Wound/Ostomy & Hyperbaric Center. Though we are sad to see him go, we are excited to announce the onboarding of an additional vascular surgeon to meet the growing need in our community. We welcomed Mark Janzen, M.D., in late January. As vascular surgeons, we look forward to assisting in the care of your vascular disease patients. This includes carotid artery disease, aortic and peripheral aneurysms, peripheral artery disease, hemodialysis access and non-cosmetic varicose veins. We offer minimally invasive endovascular solutions and if necessary, open surgical options for these patients.

Currently, due to a high demand, our clinic is accepting referrals for vascular procedures only. General surgery referrals can now be faxed to one centralized location at 530-893-6060 and patients will be placed in the next available appointment.

For vascular surgery referrals, please continue to refer directly to our clinic, rather than to a specific provider, to secure the first available appointment. Referrals can still be faxed to 530-893-6986.

Thank you for your partnership in caring for our community, and please do not hesitate to reach out to us if you have questions.

Sincerely,

Dr. Bradley Dyniewski
