

Enloe's Employee Breastfeeding & Pump Parts Program

We are excited to announce that Enloe employees can now purchase pump parts at the Nettleton Mother-Baby Care Center. We know how stressful it can be when you get to work and realize that you may have left a pump part at home, so we created this system for you to be able to have access to purchase pump equipment while you are at work. If you would like to purchase pump equipment, please contact the NMBCC charge nurse or lactation consultant.

The process will be as follows:

- Employee will contact their unit charge nurse first to discuss a solution to the situation and if pump equipment for employee purchase is needed, the unit charge nurse will call the NMBCC charge nurse to formulate a plan.
- NMBCC charge nurse will unlock the cabinet in the lactation room and provide employee with the items she needs.
- The NMBCC charge nurse and employee will complete and sign the charge sheet (found in the cabinet with the pump parts.) The completed charge sheet will be placed in the "Completed" folder in the locked cabinet.
- One of our program assistants will then collect the charge sheets that week, and process the payment.

Here is an example of the items available for purchase:

- | | |
|---------------------------------------|--|
| ➤ Breastshields with valve & membrane | ➤ PersonalFit breastshields |
| ➤ Symphony cap & membrane | ➤ Breastshield connector |
| ➤ Collection bottles | ➤ Yellow valves & membranes |
| ➤ Pump and Save Bags | ➤ Tubing (For Pump in style or Symphony) |

**We hope this new process will be helpful to our pumping employees. Please remember that the pumping kits stocked on our unit are for patient use only.

Thank you- Your Lactation Team
