

ENLOE HEALTH RETIREMENT PROGRAM

INSPIRING A HEALTHIER RETIREMENT

Choose well.

Live well.

Save well.

Invest some of what you earn today for what you plan to accomplish tomorrow.

Dear Enloe Employee:

It's a pleasure to let you know that you will be enrolled in the Enloe Health Retirement Savings Program. Take a look and see what a difference the plan could make in achieving your goals.

If you have not enrolled in the Retirement Savings Plan within 35 days of your eligibility date, you will be automatically enrolled in the Retirement Savings Plan at a contribution rate of 5% of your pretax eligible earnings and your contributions will be invested in a T. Rowe Price Retirement Fund, based on your date of birth, assuming a retirement age of 65. You will also be enrolled in the Automatic Increase Program, which will automatically increase the amount you defer by 1% on an annual basis. We encourage you to take an active role in the Retirement Savings Plan and choose a contribution rate and investment options that are appropriate to you. If you do not wish to contribute to the Retirement Savings Plan, you must change your contribution rate to 0% within the first 35 calendar days of your eligibility.

Benefit from:

Matching Contributions. After one year of employment, Enloe Health helps contributions for eligible employees grow by contributing a 50% match on contributions of up to 6% of pay—it's like getting "free" money. Take advantage of this great benefit today!

Convenience. Your contributions are automatically deducted regularly from your paycheck.

Tax savings now. Your pretax contributions are deducted from your pay before income taxes are taken out. This means that you can actually lower the amount of current income taxes you pay each period. It could mean more money in your take-home pay versus saving money in a taxable account.

Tax-deferred savings opportunities. You pay no taxes on any pretax earnings until you withdraw them from your account, enabling you to keep more of your money working for you now.

Portability. You can roll over eligible savings from a previous employer into this Plan. You can also take your plan vested account balance with you if you leave the company.

Investment options. You have the flexibility to select from investment options that range from more conservative to more aggressive, making it easy for you to develop a well-diversified investment portfolio. Your plan offers you the option of having experienced professionals manage your account for you.

Automatic annual increases. Save a little more each year, the easy way — the Annual Increase Program automatically increases your contribution each year.

Online beneficiary. With Fidelity's Online Beneficiaries Service, you can designate your beneficiaries, receive instant online confirmation, and check your beneficiary information virtually any time.

Catch-up contributions. If you make the maximum contribution to your plan account, and you are 50 years of age or older during the calendar year, you can make an additional catch-up contribution of \$7,500 in 2024.

To learn more about what your plan offers, see "Frequently asked questions about your plan".

Participate in your plan and invest in yourself today.

Frequently asked questions about your plan.

Here are answers to questions you may have about the key features, benefits, and rules of your plan.

When can I enroll in the Plan?

There is no waiting period. You can enroll in the Plan at any time. If you have not enrolled in the Enloe Health Retirement Savings Program within 35 days of your eligibility date, you will be automatically enrolled in the Enloe Health Retirement Savings Program at a contribution rate of 5% of your pretax eligible earnings and your contributions will be invested in a T. Rowe Price Retirement Fund Class I, based on your date of birth, assuming a retirement age of 65. If you do not wish to contribute to the Retirement Savings Plan, you must change your contribution rate to 0% within the first 35 calendar days of your eligibility.

How do I enroll in the Plan?

Enroll online at any time, or by calling the Fidelity Retirement Service Center at 1-800-343-0860.

If you would like assistance enrolling in the Plan you can set up a one-on-one appointment with a Fidelity Workplace Financial Consultant by clicking on the "Meet" link at the bottom of the homepage at www.netbenefits.com or by calling 1-800-343-0860.

How much can I contribute?

Through automatic payroll deduction, you may contribute between 1% and 65% of your eligible pay on a pretax or Roth basis. In addition, you can automatically increase your retirement savings plan contributions each year through the Annual Increase Program. Combined, your total contribution cannot exceed 65% of your eligible pay. Sign up online by accessing the "Contribution Amount" section on NetBenefits®, or by calling the

Fidelity Retirement Service Center at 1-800-343-0860.

What is the IRS contribution limit?

The IRS contribution limit for 2024 is \$23,000.

What "catch-up" contribution can I make?

As long as you have reached or will reach age 50 by year end and are making the maximum plan or IRS pretax or Roth contribution, you may make an additional "catch-up" contribution each pay period.

When is my enrollment effective?

Your enrollment becomes effective once you elect a deferral percentage, which initiates deduction of your contributions from your pay. These salary deductions will generally begin with your next pay period after we receive your enrollment information, or as soon as administratively possible.

Does the organization contribute to my account?

Enloe Health helps your retirement savings grow by matching your contributions.

After 1 year of service in which you work at least 1,000 hours, Enloe Health will match 50% of each pretax dollar you contribute on the first 6% of pay that you defer to your plan. In addition, Enloe will make a Base Contribution equal to 3% of your compensation. The Base Contribution is made to your account even if you are not contributing to the Retirement Savings Plan. Matching and Base Contributions are directed to the Defined Contribution Retirement Plan.

How do I designate my beneficiary?

If you have not already selected your beneficiaries, or if you have experienced a life-changing event such as a marriage, divorce, birth of a child, or a death in the family, it's time to consider your beneficiary designations. Fidelity's Online Beneficiaries Service offers a straightforward, convenient process that takes just minutes. To make your elections, click on the "Profile" link, then select "Beneficiaries" and follow the online instructions.

What is the Roth contribution option?

A Roth contribution to your retirement savings plan allows you to make after-tax contributions and take any associated earnings completely tax free at retirement - as long as the distribution is a qualified one. A qualified distribution, in this case, is one that is taken at least five tax years after your first Roth 403(b) contribution and after you have attained age 59½, or become disabled or die. Through automatic payroll deduction, you can contribute between 1% and 65% of your eligible pay as designated Roth contributions, up to the annual IRS dollar limits.

Find more information online within the "Library" section of NetBenefits®.

What are my investment options?

To help you meet your investment goals, the Plan offers you a range of options. You can select a mix of investment options that best suits your goals, time horizon, and risk tolerance. The many investment options available through the Plan include conservative, moderately conservative, and aggressive funds. A complete description of the Plan's investment options and their performance, as well as planning tools to help you choose an appropriate mix, are available online.

What if I don't make an investment election?

We encourage you to take an active role in the Retirement Savings Program and choose investment options that best suit your goals,

time horizon, and risk tolerance. If you do not select specific investment options in the Plan, your contributions will be invested in the T. Rowe Price Retirement Fund Class I with the target retirement date closest to the year you might retire, based on your current age and assuming a retirement age of 65, at the direction of Enloe Health.

If no date of birth or an invalid date of birth is on file at Fidelity, your contributions may be invested in the T. Rowe Price Retirement 2005 Fund Class I. More information about the T. Rowe Price Retirement Fund Class I options can be found online.

Target Date Funds are an asset mix of stocks, bonds and other investments that automatically becomes more conservative as the fund approaches its target retirement date and beyond. Principal invested is not guaranteed.

Who can I contact for retirement planning?

Fidelity Workplace Financial Consultants are knowledgeable professionals equipped with detailed information about the Plan and the financial know-how to help get you on your way. You can talk to a Workplace Financial Consultant over the phone or schedule an always complimentary one-on-one consultation. The Fidelity Workplace Financial Consultants are located in Suite 1 at 1601 Esplanade (the Cal Java building). You can set up a one-on-one consultation by clicking on the Meet link at the bottom of the homepage or by calling 1-800-343-0860.

When am I vested?

You are always 100% vested in your own contributions to the Retirement Savings Program, as well as any earnings on them. Enloe Health's contributions and any earnings are vested after 3 years of service.

Can I take a loan from my account?

Although your plan account is intended for the future, you may borrow from your account for any reason.

Learn more about and/or request a loan online, or by calling the Fidelity Retirement Service Center at 1-800-343-0860.

Can I make withdrawals?

Withdrawals from the Plan are generally permitted when you terminate your employment, retire, reach age 59½, become permanently disabled, or have severe financial hardship, as defined by your plan.

When you leave Enloe Health, you can withdraw contributions and any associated earnings or, if your vested account balance is greater than \$5,000 you can leave contributions and any associated earnings in the Plan. After you leave Enloe Health, if your vested account balance is equal to or less than \$1,000, it will automatically be distributed to you. However, if your vested account balance is greater than \$1,000 but not more than \$5,000, you will be notified that your entire vested account balance will be transferred to an Individual Retirement Account (Rollover IRA), unless you request either a cash distribution or a rollover distribution of your choice.

Learn more about and/or request a withdrawal online, or by calling the Fidelity Retirement Service Center at 1-800-343-0860.

Can I move money from another retirement plan into my account in the Retirement Savings Program?

You are permitted to roll over eligible pretax and after-tax contributions from another 401(k) plan, Roth 401(k) plan, 401(a) plan, 403(b) plan, Roth 403(b) plan, a governmental 457(b) retirement plan, or a Roth 457(b) retirement plan account or eligible pretax contributions from conduit individual retirement accounts (IRAs). A conduit IRA is one that contains only money rolled over from an employer-sponsored retirement plan that has not been mixed with regular IRA contributions.

Additional information can be obtained online, or by calling the Fidelity Retirement Service Center at 1-800-343-0860.

Be sure to consider all your available options and the applicable fees and features of each before moving your retirement assets.

Where can I find information about exchanges and other plan features?

Learn about loans, exchanges (moving money from one investment to another), and more online. In particular, you can access loan modeling tools that illustrate the potential impact of a loan on the long-term growth of your account. You will also find a withdrawal modeling tool, which shows the amount of federal income taxes and early withdrawal penalties you might pay, along with the amount of earnings you could potentially lose by taking a withdrawal. Additional information can be obtained by calling the Fidelity Retirement Service Center at 1-800-343-0860.

Step up your contributions with the Annual Increase Program.

Help boost your contribution amount automatically: The Annual Increase Program allows you to increase your retirement savings plan contributions automatically each year. It's an easy way to help keep yourself on track as you get closer to retirement.

ACTION PLAN

- Review the details of the Annual Increase Program
- Choose the amount and date of your annual increase

How does the Annual Increase Program work?

Choose the amount and date for your annual increase, and the rest is automatic. Each year on the designated date, your contributions will increase by the amount you elected.

How does the Annual Increase Program benefit me?

Small increases in your contributions can lead to significant benefits in retirement. When you enroll in the Annual Increase Program, you may help ensure a step up in your retirement plan account contributions each year. This means more opportunity for your savings to grow. It can help you save more but feel less of an impact in your take-home pay.

How do I enroll?

To make your plan's Annual Increase Program part of your retirement saving strategy, log on to NetBenefits® or call your plan's toll-free number to choose the amount and select the date for your annual increase.

What amount and date should I choose for my annual increase?

Choose an annual increase of 1% or 2% and time it to coincide with your annual review or pay increase. The system follows through by automatically increasing your contribution on your selected date each year.

What if I need to make changes or withdraw?

You can change or withdraw from the program at any time by calling your plan's toll-free number or by visiting NetBenefits.®

Additional information about the Annual Increase Program

Eligibility requirements.

To participate in the program, you must be contributing regularly to your workplace savings plan through payroll deductions. If you stop making regular payroll deductions, your annual increase elections will be maintained on the system until conditions change to allow for the application of your elections.

After I sign up, when does the increased contribution go into effect?

Your Annual Increase Program elections will take effect as soon as administratively feasible. Therefore, depending on the frequency of your paycheck, it takes a minimum of one to two pay periods for the election to take effect.

Program elections.

In most circumstances, your increase election will be applied on a pretax basis. If your employer allows Roth deductions, in limited circumstances your election may be applied on a Roth basis.

Exceptions to program elections.

Your Annual Increase Program elections will be applied until you withdraw from the program, subject to the following exceptions:

- **Plan or statutory limits.** If you are close to or over the maximum percentage or dollar amount that you are allowed to contribute to your retirement plan, none or only some of your increase amount will be applied on your designated increase date. However, if you have made a "spillover" election to continue contributions on an after-tax basis, your annual increase election may be applied for the remainder of the plan year.

- **Suspension of plan contributions.** If you are suspended from making contributions to your plan due to certain plan rules, your program increase will also be suspended. Depending on plan rules, your election may or may not be reinstated at the end of the suspension period.
- **Highly compensated employees (HCEs).** If your designation as an HCE limits or otherwise restricts you from making additional contributions, your contributions may not be increased even if you have elected to participate in the program.
- **Change in employment status.** If your deductions are interrupted due to a change in your employment status such as a leave of absence or disability, your program elections will be held on file. It's a good idea to confirm that you are still enrolled in the program when your deductions begin again.

Please consult your plan rules for more detailed information. If you have questions, please call your plan's toll-free number or log on to NetBenefits.®

- Call your plan's toll-free number to speak with a Fidelity Representative

What is the Roth 403(b) Contribution Option?

A Roth contribution is available to employees who participate in the 403(b) plan. For payroll purposes, Roth contributions are treated as after tax. This feature will allow participants to make Roth contributions to their plan while taking their earnings completely **tax-free** at retirement—as long as the withdrawal is a qualified one. A qualified withdrawal is one that can be taken five tax years after the year of the first Roth contribution *and* after the participant has attained age 59½, has become disabled, or has died.

If you qualify to make traditional 403(b) contributions, you are eligible for a Roth 403(b) contribution.

How does a Roth 403(b) contribution option work?

You elect an amount of your salary that you wish to contribute to the Roth source, just as you would for your traditional 403(b). The contribution is based on your eligible compensation, not on your net pay—for example, if your total annual eligible compensation is \$40,000 per year and you elect a 6% deferral amount, then \$2,400 per year would go into your Roth 403(b) account.

Unlike your traditional 403(b) pretax contribution, with a Roth 403(b) contribution, you pay the taxes now on the contributions you make—but later your earnings are all tax-free, if you meet certain criteria.

Example: Sally earns \$40,000 and has elected to put 6% toward her Roth 403(b) contributions and 6% toward her traditional 403(b) pretax contributions on a monthly basis.

	ROTH 403(b)*	TRADITIONAL 403(b)*
Sally's monthly contribution into each account	\$200	\$200
Sally's reduction in take-home pay	\$200	\$156

*This hypothetical example is based solely on an assumed federal income tax rate of 22%. No other payroll deductions are taken into account. Your own results will be based on your individual tax situation.

Your combined Roth and traditional pretax 403(b) contributions cannot exceed the IRS limits for the year.

Would a Roth 403(b) contribution option benefit me?

The potential benefits of Roth 403(b) contributions really depend on your personal situation, but are mainly focused on your existing tax rate and your anticipated tax rate at the time of retirement. If you are contributing to a Roth, you are giving up a tax break today for a tax break in the future.

Therefore, a Roth contribution might benefit you if your tax rate in retirement were **higher** than it had been during the years you contributed.

If your tax rate were **lower** in retirement, then a traditional 403(b) might be more beneficial to you than the Roth option. Talk with a tax professional for more information on how to determine if Roth 403(b) contributions are right for you.

Is a traditional pretax 403(b) still beneficial?

Yes. For many participants, a traditional pretax 403(b) will still be the most beneficial type of retirement savings plan. We do not know what the future holds regarding tax rates. Therefore, it is not possible to predict with certainty which type of 403(b) savings will be most beneficial to a participant.

Remember, because Roth 403(b) contributions are made after tax, you may take home less money in your paycheck than you would if you contributed to a traditional pretax 403(b).

Investment Options

Here is a list of investment options for the Retirement Savings Program. For up-to-date performance information and other fund specifics, go to www.netbenefits.com.

Target date investments are generally designed for investors expecting to retire around the year indicated in each investment's name. The investments are managed to gradually become more conservative over time. The investment risks of each target date investment change over time as its asset allocation changes. They are subject to the volatility of the financial markets, including equity and fixed income investments in the U.S. and abroad and may be subject to risks associated with investing in high yield, small cap and foreign securities. Principal invested is not guaranteed at any time, including at or after their target dates.

The chart below lists the assigned fund the Retirement Savings Program believes will best fit your diversification needs should you not select an investment option.

Your Birth Date*	Fund Name	Target Retirement Years
Before 1943	T. Rowe Price Retirement 2005 Fund Class I	Retired before 2008

This spectrum, with the exception of the Domestic Equity category, is based on Fidelity's analysis of the characteristics of the general investment categories and not on the actual investment options and their holdings, which can change frequently. Investment options in the Domestic Equity category are based on the options' Morningstar categories as of 02/29/2024. There may be a number of funds in each category and each may have a significantly different risk profile as compared to other funds within that category as well as compared to funds in other categories on the spectrum. Morningstar categories are based on a fund's style as measured by its underlying portfolio holdings over the past three years and may change at any time. These style calculations do not represent the investment options' objectives and do not predict the investment options' future styles. Investment options are listed in alphabetical order within each investment category. Risk associated with the investment options can vary significantly within each particular investment category and the relative risk of categories may change under certain economic conditions. For a more complete discussion of risk associated with the mutual fund options, please read the prospectuses before making your investment decisions. The spectrum does not represent actual or implied performance.

Investment Options

Before investing in any mutual fund, consider the investment objectives, risks, charges, and expenses. Contact Fidelity for a mutual fund prospectus or, if available, a summary prospectus containing this information. Read it carefully.

AB Large Cap Growth Fund Class A

VRS Code: 891870

Fund Objective: The investment seeks long-term growth of capital.

Fund Strategy: The fund invests primarily in equity securities of a limited number of large, carefully selected, high-quality U.S. companies. It invests primarily in the domestic equity securities of companies selected by the fund's Adviser for their growth potential within various market sectors. The fund emphasizes investments in large, seasoned companies. Under normal circumstances, the fund will invest at least 80% of its net assets in common stocks of large-capitalization companies. It may, at times, invest in shares of exchange-traded funds in lieu of making direct investments in securities.

Fund Risk: Growth stocks can perform differently from the market as a whole and can be more volatile than other types of stocks. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Fund short term trading fees: None

Who may want to invest:

- Someone who is seeking the potential for long-term share-price appreciation.
- Someone who is willing to accept the generally greater price volatility associated with growth-oriented stocks.

Footnotes:

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
-

American Funds American Balanced Fund® Class R-6

VRS Code: 885042

Fund Objective: The investment seeks conservation of capital, current income and long-term growth of capital and income.

Fund Strategy: The fund uses a balanced approach to invest in a broad range of securities, including common stocks and investment-grade bonds. It also invests in securities issued and guaranteed by the U.S. government and by federal agencies and instrumentalities. In addition, the fund may invest a portion of its assets in common stocks, most of which have a history of paying dividends, bonds and other securities of issuers domiciled outside the United States.

Fund Risk: Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. In general the bond market is volatile, and fixed income securities carry interest rate risk. (As interest rates rise, bond prices usually fall, and vice versa. This effect is usually more pronounced for longer-term securities.) Fixed income securities also carry inflation risk and credit and default risks for both issuers and counterparties. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Fund short term trading fees: None

Who may want to invest:

- Someone who is seeking to invest in a fund that invests in both stocks and bonds.
- Someone who is seeking the potential both for income and for long-term share-price appreciation and who is willing to accept the volatility of the bond and stock markets.

Footnotes:

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
- The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class's actual inception of 05/01/2009. These calculated returns reflect the historical performance of the oldest share class of the fund, with an inception date of 07/25/1975, adjusted to reflect the fees and expenses of this share class (when this share class's fees and expenses are higher.) Please refer to a fund's prospectus for information regarding fees and expenses. These adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the fund itself.

American Funds EuroPacific Growth Fund® Class R-2

VRS Code: 822142

Fund Objective: The investment seeks long-term growth of capital.

Fund Strategy: The fund invests primarily in common stocks of issuers in Europe and the Pacific Basin that the investment adviser believes have the potential for growth. Growth stocks are stocks that the investment adviser believes have the potential for above-average capital appreciation. It normally will invest at least 80% of its net assets in securities of issuers in Europe and the Pacific Basin. The fund may invest a portion of its assets in common stocks and other securities of companies in emerging markets.

Fund Risk: Foreign securities are subject to interest-rate, currency-exchange-rate, economic, and political risks, all of which may be magnified in emerging markets. Growth stocks can perform differently from the market as a whole and can be more volatile than other types of stocks. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Fund short term trading fees: None

Who may want to invest:

- Someone who is seeking to complement a portfolio of domestic investments with international investments, which can behave differently.
- Someone who is willing to accept the higher degree of risk associated with investing overseas.

Footnotes:

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
 - The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class's actual inception of 05/31/2002. These calculated returns reflect the historical performance of the oldest share class of the fund, with an inception date of 04/16/1984, adjusted to reflect the fees and expenses of this share class (when this share class's fees and expenses are higher.) Please refer to a fund's prospectus for information regarding fees and expenses. These adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the fund itself.
-

American Funds Inflation Linked Bond Fund Class R-6

VRS Code: 867591

Fund Objective: The investment seeks to provide inflation protection and income consistent with investment in inflation-linked securities.

Fund Strategy: The fund seeks to provide inflation protection and income by investing primarily in inflation linked securities. Normally, at least 80% of the fund's assets will be invested in inflation linked bonds issued by U.S. and non-U.S. governments, their agencies or instrumentalities, and corporations. Inflation linked bonds are structured to protect against inflation by linking the bond's principal and interest payments to an inflation index so that principal and interest adjust to reflect changes in the index.

Fund Risk: The interest payments of TIPS are variable, they generally rise with inflation and fall with deflation. In general the bond market is volatile, and fixed income securities carry interest rate risk. (As interest rates rise, bond prices usually fall, and vice versa. This effect is usually more pronounced for longer-term securities.) Fixed income securities also carry inflation risk and credit and default risks for both issuers and counterparties. Unlike individual bonds, most bond funds do not have a maturity date, so avoiding losses caused by price volatility by holding them until maturity is not possible. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Fund short term trading fees: None

Who may want to invest:

- Someone who is seeking potential returns primarily in the form of interest income and who can tolerate more frequent changes in the size of income distributions than those usually found with more conservative bond funds.
- Someone who is seeking to supplement his or her core fixed-income holdings with a bond investment that is tied to changes in inflation.

**Footnotes:**

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
 - The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class's actual inception of 11/01/2013. These calculated returns reflect the historical performance of the oldest share class of the fund, with an inception date of 12/14/2012, adjusted to reflect the fees and expenses of this share class (when this share class's fees and expenses are higher.) Please refer to a fund's prospectus for information regarding fees and expenses. These adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the fund itself.

American Funds New Perspective Fund® Class R-6**VRS Code:** 885010**Fund Objective:** The investment seeks long-term growth of capital.**Fund Strategy:** The fund seeks to take advantage of investment opportunities generated by changes in international trade patterns and economic and political relationships by investing in common stocks of companies located around the world. In pursuing its investment objective, it invests primarily in common stocks that the investment adviser believes have the potential for growth.**Fund Risk:** Foreign securities are subject to interest-rate, currency-exchange-rate, economic, and political risks, all of which may be magnified in emerging markets. Growth stocks can perform differently from the market as a whole and can be more volatile than other types of stocks. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. Additional risk information for this product may be found in the prospectus or other product materials, if available.**Fund short term trading fees:** None**Who may want to invest:**

- Someone who is seeking an investment that invests in both domestic and international markets.
- Someone who is willing to accept the generally greater price volatility associated both with growth-oriented stocks and the generally higher degree of risk associated with international investments.

Footnotes:

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
 - The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class's actual inception of 05/01/2009. These calculated returns reflect the historical performance of the oldest share class of the fund, with an inception date of 03/13/1973, adjusted to reflect the fees and expenses of this share class (when this share class's fees and expenses are higher.) Please refer to a fund's prospectus for information regarding fees and expenses. These adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the fund itself.
-

BrandywineGLOBAL - High Yield Fund Class I**VRS Code:** 907940**Fund Objective:** The investment seeks high current income with the opportunity for capital appreciation.**Fund Strategy:** Under normal market conditions, the Advisor intends to provide exposure to high yield securities by investing at least 80% of its net assets in a diversified portfolio of corporate debt securities that are rated at the time of purchase below investment grade or unrated securities determined by the subadviser to be of comparable credit quality. These investments are also known as "junk bonds," "high yield bonds," and "non-investment grade bonds," and may include so called "distressed debt."**Fund Risk:** The fund may invest in lower-quality debt securities that involve greater risk of default or price changes due to potential changes in the credit quality of the issuer. In general the bond market is volatile, and fixed income securities carry interest rate risk. (As interest rates rise, bond prices usually fall, and vice versa. This effect is usually more pronounced for longer-term securities.) Fixed income securities also carry inflation risk and credit and default risks for both issuers and counterparties. Unlike individual bonds, most bond funds do not have a maturity date, so avoiding losses caused by price volatility by holding them until maturity is not possible. Additional risk information for this product may be found in the prospectus or other product materials, if available.**Fund short term trading fees:** None**Who may want to invest:**

- Someone interested in a bond fund that provides the potential for both current income and share-price appreciation.
- Someone who is seeking to complement his or her core bond holdings with a bond investment that seeks higher returns from riskier bonds, and who can tolerate higher risk.

Footnotes:

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
-

Cohen & Steers Realty Shares Fund Class L**VRS Code:** 893727**Fund Objective:** The investment seeks total return through investment in real estate securities.

Fund Strategy: Under normal market conditions, the fund invests at least 80% of its total assets in common stocks and other equity securities issued by real estate companies. It may invest up to 20% of its total assets in securities of foreign issuers which meet the same criteria for investment as domestic companies, including investments in such companies in the form of American Depositary Receipts ("ADRs"), Global Depositary Receipts ("GDRs") and European Depositary Receipts ("EDRs"). The fund is non-diversified.

Fund Risk: Real Estate is a cyclical industry that is sensitive to interest rates, economic conditions (both nationally and locally), property tax rates, and other factors. Changes in real estate values or economic downturns can have a significant negative effect on issuers in the real estate industry. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Sector funds can be more volatile because of their narrow concentration in a specific industry. In general the bond market is volatile, and fixed income securities carry interest rate risk. (As interest rates rise, bond prices usually fall, and vice versa. This effect is usually more pronounced for longer-term securities.) Fixed income securities also carry inflation risk and credit and default risks for both issuers and counterparties. Unlike individual bonds, most bond funds do not have a maturity date, so avoiding losses caused by price volatility by holding them until maturity is not possible. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Fund short term trading fees: None**Who may want to invest:**

- Someone who is willing to accept the potentially lower diversification and higher risks associated with investing in a particular industry or sector.
- Someone who is seeking to complement his or her core holdings with investments concentrated in a particular sector or industry.

Footnotes:

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
-

Federated Hermes Total Return Bond Fund Institutional Shares**VRS Code:** 879241**Fund Objective:** The investment seeks to provide total return.

Fund Strategy: The fund pursues its investment objective by investing primarily in U.S. dollar denominated, investment-grade, fixed-income securities. In addition, it may invest in high-yield, non-U.S. dollar denominated, and emerging market fixed-income securities. The amount of any unhedged non-U.S. dollar denominated fixed-income securities and foreign currencies in the fund's portfolio will normally not exceed 10% of the fund's total assets. The maximum amount that the fund may invest in non-U.S. dollar denominated fixed-income securities and foreign currencies is 20% of the fund's total assets.

Fund Risk: In general the bond market is volatile, and fixed income securities carry interest rate risk. (As interest rates rise, bond prices usually fall, and vice versa. This effect is usually more pronounced for longer-term securities.) Fixed income securities also carry inflation risk and credit and default risks for both issuers and counterparties. Unlike individual bonds, most bond funds do not have a maturity date, so avoiding losses caused by price volatility by holding them until maturity is not possible. The fund may invest in lower-quality debt securities that involve greater risk of default or price changes due to potential changes in the credit quality of the issuer. Foreign securities are subject to interest-rate, currency-exchange-rate, economic, and political risks, all of which may be magnified in emerging markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Fund short term trading fees: None**Who may want to invest:**

- Someone who is seeking potential returns primarily in the form of interest income rather than through an increase in share price.
- Someone who is seeking to diversify an equity portfolio with a more conservative investment option.

Footnotes:

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

Fidelity® 500 Index Fund

VRS Code: 002328

Fund Objective: Seeks to provide investment results that correspond to the total return (i.e., the combination of capital changes and income) performance of common stocks publicly traded in the United States.

Fund Strategy: Normally investing at least 80% of assets in common stocks included in the S&P 500 Index, which broadly represents the performance of common stocks publicly traded in the United States.

Fund Risk: Stock markets, especially foreign markets, are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, or economic developments.

Fund short term trading fees: None

Who may want to invest:

- Someone who is seeking the potential for long-term share-price appreciation.
- Someone who is seeking both growth- and value-style investments and who is willing to accept the volatility associated with investing in the stock market.

Footnotes:

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
 - The S&P 500 Index is a market capitalization-weighted index of 500 common stocks chosen for market size, liquidity, and industry group representation to represent U.S. equity performance.
 - Returns prior to May 4, 2011 are those of the Premium Class and reflect the Premium Class' expense ratio. Had the Institutional Premium Class' expense ratio been reflected, total returns would have been higher.
-

Fidelity® Mid Cap Index Fund

VRS Code: 002352

Fund Objective: The fund seeks to provide investment results that correspond to the total return of stocks of mid-capitalization United States companies.

Fund Strategy: Normally investing at least 80% of assets in securities included in the Russell Midcap Index. Lending securities to earn income for the fund.

Fund Risk: Stock markets, especially foreign markets, are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, or economic developments. Investments in smaller companies may involve greater risks than those in larger, more well-known companies.

Fund short term trading fees: None

Who may want to invest:

- Someone who is seeking the potential for long-term share-price appreciation.
- Someone who is seeking both growth- and value-style investments and who is willing to accept the generally greater volatility of investments in smaller companies.

Footnotes:

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
 - The Russell Mid Cap Index is an unmanaged index that measures the performance of the 800 smallest companies in the Russell 1000 Index, which represent approximately 26% of the total market capitalization of the Russell 1000 Index.
-

Fidelity® Small Cap Index Fund

VRS Code: 002358

Fund Objective: The fund seeks to provide investment results that correspond to the total return of stocks of small-capitalization United States companies.

Fund Strategy: Normally investing at least 80% of assets in securities included in the Russell 2000 Index. Lending securities to earn income for the fund.

Fund Risk: Stock markets, especially foreign markets, are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, or economic developments. Investments in smaller companies may involve greater risks than those in larger, more well-known companies.

Fund short term trading fees: None

Who may want to invest:

- Someone who is seeking the potential for long-term share-price appreciation.
- Someone who is seeking both growth- and value-style investments and who is willing to accept the generally greater volatility of investments in smaller companies.

Footnotes:

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
 - The Russell 2000® Index is an unmanaged market capitalization weighted index measuring the performance of the smallest 2,000 companies in the Russell 3000 index.
-

Invesco Developing Markets Fund Class Y

VRS Code: 840666

Fund Objective: The investment seeks capital appreciation.

Fund Strategy: The fund mainly invests in common stocks of issuers in developing and emerging markets throughout the world and at times it may invest up to 100% of its total assets in foreign securities. Under normal market conditions, the fund will invest at least 80% of its net assets, plus borrowings for investment purposes, in equity securities of issuers whose principal activities are in a developing market, i.e. are in a developing market or are economically tied to a developing market country, and in derivatives and other instruments that have economic characteristics similar to such securities.

Fund Risk: Foreign securities are subject to interest-rate, currency-exchange-rate, economic, and political risks, all of which may be magnified in emerging markets. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Fund short term trading fees: None

Who may want to invest:

- Someone who is willing to accept the higher degree of risk associated with investing in emerging markets.
- Someone who is seeking to complement a portfolio of domestic investments and/or international investments in developed countries with investments in developing countries, which can behave differently.

Footnotes:

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
 - The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class's actual inception of 09/07/2005. These calculated returns reflect the historical performance of the oldest share class of the fund, with an inception date of 11/18/1996, adjusted to reflect the fees and expenses of this share class (when this share class's fees and expenses are higher.) Please refer to a fund's prospectus for information regarding fees and expenses. These adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the fund itself.
-

Janus Henderson VIT Enterprise Portfolio Institutional Class

VRS Code: 896234

Fund Objective: The investment seeks long-term growth of capital.

Fund Strategy: The Portfolio pursues its investment objective by investing primarily in common stocks selected for their growth potential, and normally invests at least 50% of its equity assets in medium-sized companies. The Portfolio considers medium-sized companies to be those whose market capitalization falls within the range of companies in the Russell Midcap® Growth Index. Market capitalization is a commonly used measure of the size and value of a company. It may also invest in foreign securities.

Fund Risk: Growth stocks can perform differently from the market as a whole and can be more volatile than other types of stocks. The securities of smaller, less well-known companies can be more volatile than those of larger companies. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Fund short term trading fees: None

Who may want to invest:

- Someone who is seeking the potential for long-term share-price appreciation.
- Someone who is willing to accept the generally greater price volatility associated both with growth-oriented stocks and with smaller companies.

Footnotes:

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
- The Russell Midcap[®] Growth Index is an unmanaged market capitalization-weighted index of medium-capitalization growth-oriented stocks of U.S. domiciled companies that are included in the Russell Midcap Index. Growth-oriented stocks tend to have higher price-to-book ratios and higher forecasted growth values.

JPMorgan U.S. Equity Fund Class R6

VRS Code: 878739

Fund Objective: The investment seeks to provide high total return from a portfolio of selected equity securities.

Fund Strategy: Under normal circumstances, the fund invests at least 80% of its assets in equity securities of U.S. companies. "Assets" means net assets, plus the amount of borrowings for investment purposes. In implementing its strategy, the fund primarily invests in common stocks of large- and medium-capitalization U.S. companies but it may also invest up to 20% of its assets in common stocks of foreign companies, including depositary receipts.

Fund Risk: Value and growth stocks can perform differently from other types of stocks. Growth stocks can be more volatile. Value stocks can continue to be undervalued by the market for long periods of time. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Fund short term trading fees: None

Who may want to invest:

- Someone who is seeking the potential for long-term share-price appreciation.
- Someone who is seeking both growth- and value-style investments and who is willing to accept the volatility associated with investing in the stock market.

Footnotes:

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
- The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class's actual inception of 11/30/2010. These calculated returns reflect the historical performance of the oldest share class of the fund, with an inception date of 09/17/1993, adjusted to reflect the fees and expenses of this share class (when this share class's fees and expenses are higher.) Please refer to a fund's prospectus for information regarding fees and expenses. These adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the fund itself.

Lincoln Stable Value Account

VRS Code: 918864

Fund Objective: The Lincoln Stable Value Account seeks to maximize investment income while maintaining preservation of capital.

Fund Strategy: The Lincoln Stable Value Account is a group fixed annuity issued by The Lincoln National Life Insurance Company. It invests in a diversified portfolio of fixed income instruments. Lincoln Investment Management Company (LIMCO) is responsible for establishing, implementing, and providing oversight for the investment strategy and risk management of Lincoln Stable Value portfolios. LIMCO chooses external asset managers to research and select investments, with the exception of commercial mortgage and real estate sectors, which are managed internally. Guarantees for the Lincoln Stable Value Account are subject to the claims-paying ability of the issuer.

Fund Risk: The fund is backed by a diversified portfolio of fixed-income assets held in the general account of the issuer. Guarantees are subject to the claims paying ability of the issuer. Restrictions or fees may apply to exchanges or withdrawals. The Contracts provide for the payment of certain withdrawals and exchanges at book value during the terms of the Contracts. In order to maintain the Contract issuers' promise to pay such withdrawals and exchanges at book value, the Contracts subject the fund and its participants to certain restrictions. For example, withdrawals prompted by certain events (e.g., layoffs, early retirement windows, spin-offs, sale of a division, facility closings, plan terminations, partial plan terminations, changes in laws or regulations) may be paid at the market value of the fund's securities, which may be less than your book value balance or may restrict withdrawals in these events. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Certain investment options offered by your plan (e.g., money market funds, short term bond funds, certain asset allocation/lifecycle funds and brokerage window) may be deemed by the Contract issuers to "compete" with this fund. The terms of the Contracts prohibit you from making a direct exchange from this fund to such competing funds. Instead, you must first exchange to a non-competing fund for 90 days. While these requirements may seem restrictive, they are imposed by the Contract issuers as a condition for the issuer's promise to pay certain withdrawals and exchanges at book value.

Fund short term trading fees: None

Who may want to invest:

- Someone who seeks a slightly higher yield over the long term than is offered by money market funds, but who is willing to accept slightly more investment risk.
- Someone who is interested in balancing an aggressive portfolio with an investment that seeks to provide a declared crediting rate that is reset on a periodic basis.

Footnotes:

- The investment option is an annuity. The fund is managed by Lincoln National Life Insurance Company. This description is only intended to provide a brief overview of the fund.
- This investment option is not a mutual fund.

Parnassus Core Equity Fund - Investor Shares

VRS Code: 846040

Fund Objective: The investment seeks to achieve both capital appreciation and current income.

Fund Strategy: The fund's objective is to achieve both capital appreciation and current income by investing primarily in a diversified portfolio of equity securities. Equity securities include common and preferred stock. Under normal circumstances, the fund will invest a minimum of 80% of its net assets (plus borrowings for investment purposes) in equity securities. At least 65% of the fund's total assets will normally be invested in equity securities that pay interest or dividends.

Fund Risk: Value and growth stocks can perform differently from other types of stocks. Growth stocks can be more volatile. Value stocks can continue to be undervalued by the market for long periods of time. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. The Fund's sustainable investment strategy will affect the fund's exposure to certain issuers, industries, sectors, regions and countries and could cause the fund to sell or avoid securities that subsequently perform well. In addition, securities that do not meet the sustainable investing criteria could outperform those that do. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Fund short term trading fees: None

Who may want to invest:

- Someone who is seeking the potential for long-term share-price appreciation.
- Someone who is seeking both growth- and value-style investments and who is willing to accept the volatility associated with investing in the stock market.

Footnotes:

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

T. Rowe Price Institutional Small-Cap Stock Fund

VRS Code: 843739

Fund Objective: The investment seeks to provide long-term capital growth.

Fund Strategy: The fund will normally invest at least 80% of its net assets (including any borrowings for investment purposes) in stocks of small companies. The advisor defines a small company as one whose market capitalization falls within or below the current range of companies in either the Russell 2000® Index or the S&P SmallCap 600 Index or below the three-year average maximum market capitalization of companies in either index as of December 31 of the three preceding years. While most assets will typically be invested in U.S. common stocks, the fund may invest in foreign stocks in keeping with its objectives.

Fund Risk: The securities of smaller, less well-known companies can be more volatile than those of larger companies. Growth stocks can perform differently from the market as a whole and can be more volatile than other types of stocks. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Fund short term trading fees: None

Who may want to invest:

- Someone who is seeking the potential for long-term share-price appreciation.
- Someone who is willing to accept the generally greater price volatility associated both with growth-oriented stocks and with smaller companies.

Footnotes:

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
- The Russell 2000 Index is an unmanaged market capitalization-weighted index of 2,000 small company stocks of U.S. domiciled companies.
- The S&P SmallCap 600 is designed to measure the performance of the 600 small-sized companies in the U.S., reflecting this market segment's distinctive risk and return characteristics. Measuring a segment of the market that is typically known for less liquidity and potentially less financial stability than large caps, the index was constructed to be an efficient benchmark composed of small-cap companies that meet investability and financial viability criteria.

T. Rowe Price Retirement 2005 Fund Class I

VRS Code: 919711

Fund Objective: The investment seeks the highest total return over time consistent with an emphasis on both capital growth and income.

Fund Strategy: The fund pursues its objective by investing in a diversified portfolio of other T. Rowe Price stock and bond mutual funds that represent various asset classes and sectors. It is managed based on the specific retirement year (target date 2005) included in its name and assumes a retirement age of 65.

Fund Risk: The target date funds are designed for investors expecting to retire around the year indicated in each fund's name. The funds are managed to gradually become more conservative over time as they approach their target date. The investment risk of each target date fund changes over time as its asset allocation changes. They are subject to the volatility of the financial markets, including that of equity and fixed income investments in the U.S. and abroad, and may be subject to risks associated with investing in high-yield, small-cap, and foreign securities. Principal invested is not guaranteed at any time, including at or after their target dates. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Fund short term trading fees: None

Who may want to invest:

- Someone who is seeking an investment option intended for people in or very near retirement and who is willing to accept the volatility of diversified investments in the market.
- Someone who is seeking a diversified mix of stocks, bonds, and short-term investments in one investment option or who does not feel comfortable making asset allocation choices over time.

Footnotes:

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
- The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class's actual inception of 11/13/2023. These calculated returns reflect the historical performance of the oldest share class of the fund, with an inception date of 02/27/2004, adjusted to reflect the fees and expenses of this share class (when this share class's fees and expenses are higher.) Please refer to a fund's prospectus for information regarding fees and expenses. These adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the fund itself.

T. Rowe Price Retirement 2010 Fund Class I

VRS Code: 919712

Fund Objective: The investment seeks the highest total return over time consistent with an emphasis on both capital growth and income.

Fund Strategy: The fund invests in a diversified portfolio of other T. Rowe Price stock and bond mutual funds that represent various asset classes and sectors. Its allocation among T. Rowe Price mutual funds will change over time in relation to its target retirement date. The fund is managed based on the specific retirement year (target date 2010) included in its name and assumes a retirement age of 65.

Fund Risk: The target date funds are designed for investors expecting to retire around the year indicated in each fund's name. The funds are managed to gradually become more conservative over time as they approach their target date. The investment risk of each target date fund changes over time as its asset allocation changes. They are subject to the volatility of the financial markets, including that of equity and fixed income investments in the U.S. and abroad, and may be subject to risks associated with investing in high-yield, small-cap, and foreign securities. T. Rowe Price Retirement 2025 Fund Class I

VRS Code: 919715

Fund Objective: The investment seeks the highest total return over time consistent with an emphasis on both capital growth and income.

Fund Strategy: The fund invests in a diversified portfolio of other T. Rowe Price stock and bond funds that represent various asset classes and sectors. Its allocation among T. Rowe Price mutual funds will change over time in relation to its target retirement date. The fund is managed based on the specific retirement year (target date 2025) included in its name and assumes a retirement age of 65.

Fund Risk: The target date funds are designed for investors expecting to retire around the year indicated in each fund's name. The funds are managed to gradually become more conservative over time as they approach their target date. The investment risk of each target date fund changes over time as its asset allocation changes. They are subject to the volatility of the financial markets, including that of equity and fixed income investments in the U.S. and abroad, and may be subject to risks associated with investing in high-yield, small-cap, and foreign securities. Principal invested is not guaranteed at any time, including at or after their target dates. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Fund short term trading fees: None

Who may want to invest:

- Someone who is seeking an investment option that gradually becomes more conservative over time and who is willing to accept the volatility of the markets.
- Someone who is seeking a diversified mix of stocks, bonds, and short-term investments in one investment option or who does not feel comfortable making asset allocation choices over time.

Footnotes:

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
 - The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class's actual inception of 11/13/2023. These calculated returns reflect the historical performance of the oldest share class of the fund, with an inception date of 02/27/2004, adjusted to reflect the fees and expenses of this share class (when this share class's fees and expenses are higher.) Please refer to a fund's prospectus for information regarding fees and expenses. These adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the fund itself.

Principal invested is not guaranteed at any time, including at or after their target dates. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Fund short term trading fees: None

Who may want to invest:

- Someone who is seeking an investment option that gradually becomes more conservative over time and who is willing to accept the volatility of the markets.
- Someone who is seeking a diversified mix of stocks, bonds, and short-term investments in one investment option or who does not feel comfortable making asset allocation choices over time.

Footnotes:

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
- The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class's actual inception of 11/13/2023. These calculated returns reflect the historical performance of the oldest share class of the fund, with an inception date of 10/13/2020, adjusted to reflect the fees and expenses of this share class (when this share class's fees and expenses are higher.) Please refer to a fund's prospectus for information regarding fees and expenses. These adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the fund itself.

The Hartford World Bond Fund Class R6

VRS Code: 836336

Fund Objective: The investment seeks capital appreciation with income as a secondary goal.

Fund Strategy: The fund normally invests at least 80% of its assets in a broad range of fixed income securities, including U.S. and non-U.S. government and corporate debt, mortgage-related and other asset-backed securities, loan participations, inflation-protected securities, structured securities, variable, floating, and inverse floating rate instruments and preferred stock. It will invest at least 75% of its net assets in investment grade debt securities; however, the fund has the ability to invest up to 50% of its net assets in securities rated below investment grade. It is non-diversified.

Fund Risk: Foreign securities are subject to interest-rate, currency-exchange-rate, economic, and political risks, all of which may be magnified in emerging markets. The fund may invest in lower-quality debt securities that involve greater risk of default or price changes due to potential changes in the credit quality of the issuer. In general the bond market is volatile, and fixed income securities carry interest rate risk. (As interest rates rise, bond prices usually fall, and vice versa. This effect is usually more pronounced for longer-term securities.) Fixed income securities also carry inflation risk and credit and default risks for both issuers and counterparties. Unlike individual bonds, most bond funds do not have a maturity date, so avoiding losses caused by price volatility by holding them until maturity is not possible. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Fund short term trading fees: None

Who may want to invest:

- Someone who is seeking potential returns primarily in the form of interest income rather than through an increase in share price.
- Someone who is seeking to complement his or her core bond holdings with international bond investments and who can tolerate the greater risks associated with foreign investments.

Footnotes:

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
 - The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class's actual inception of 11/07/2014. These calculated returns reflect the historical performance of the oldest share class of the fund, with an inception date of 05/31/2011, adjusted to reflect the fees and expenses of this share class (when this share class's fees and expenses are higher.) Please refer to a fund's prospectus for information regarding fees and expenses. These adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the fund itself.
-

Undiscovered Managers Behavioral Value Fund Class R6

VRS Code: 895110

Fund Objective: The investment seeks capital appreciation.

Fund Strategy: The fund seeks to achieve its objective by investing in common stocks of U.S. companies that the fund's sub-adviser believes have value characteristics. Such common stocks include, but are not limited to, stocks of small capitalization companies, similar to those that are included in the Russell 2000 Value Index and real estate investment trusts (REITs). In selecting stocks for the fund, the sub-adviser applies principles based on behavioral finance.

Fund Risk: The securities of smaller, less well-known companies can be more volatile than those of larger companies. Value stocks can perform differently than other types of stocks and can continue to be undervalued by the market for long periods of time. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Fund short term trading fees: None

Who may want to invest:

- Someone who is seeking the potential for long-term share-price appreciation.
- Someone who is comfortable with value-style investments and the potentially greater volatility of investments in smaller companies.

Footnotes:

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
- The Russell 2000[®] Value Index is an unmanaged market capitalization-weighted index of value-oriented stocks of U.S. domiciled companies that are included in the Russell 2000 Index. Value-oriented stocks tend to have lower price-to-book ratios and lower forecasted growth values.
- The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class's actual inception of 04/30/2013. These calculated returns reflect the historical performance of the oldest share class of the fund, with an inception date of 12/28/1998, adjusted to reflect the fees and expenses of this share class (when this share class's fees and expenses are higher.) Please refer to a fund's prospectus for information regarding fees and expenses. These adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the fund itself.

Vanguard Balanced Index Fund Institutional Shares**VRS Code:** 845153

Fund Objective: The investment seeks to track the performance of a benchmark index that measures the investment return of the overall U.S. stock market with 60% of its assets; the fund seeks to track the performance of a broad, market-weighted bond index with 40% of its assets.

Fund Strategy: The fund employs an indexing investment approach designed to track the performance of two benchmark indexes. With approximately 60% of its assets, the fund seeks to track the investment performance of the CRSP US Total Market Index. With approximately 40% of its assets, the fund seeks to track the investment performance of the Bloomberg U.S. Aggregate Float Adjusted Index.

Fund Risk: Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. In general the bond market is volatile, and fixed income securities carry interest rate risk. (As interest rates rise, bond prices usually fall, and vice versa. This effect is usually more pronounced for longer-term securities.) Fixed income securities also carry inflation risk and credit and default risks for both issuers and counterparties. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Fund short term trading fees: None**Who may want to invest:**

- Someone who is seeking to invest in a fund that invests in both stocks and bonds.
- Someone who is seeking the potential both for income and for long-term share-price appreciation and who is willing to accept the volatility of the bond and stock markets.

Footnotes:

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
- The CRSP US Total Market Index is comprised of nearly 4,000 constituents across mega, large, small and micro capitalizations, representing nearly 100% of the U.S. investable equity market.
- The Bloomberg U.S. Aggregate Float Adjusted Index measures the total universe of public, investment-grade, taxable, fixed income securities in the United States-including government, corporate, and international dollar-denominated bonds, as well as mortgage-backed and asset-backed securities-all with maturities of more than 1 year.
- The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class's actual inception of 12/01/2000. These calculated returns reflect the historical performance of the oldest share class of the fund, with an inception date of 11/09/1992, adjusted to reflect the fees and expenses of this share class (when this share class's fees and expenses are higher.) Please refer to a fund's prospectus for information regarding fees and expenses. These adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the fund itself.

Vanguard Equity-Income Fund Admiral Shares**VRS Code:** 844550

Fund Objective: The investment seeks to provide an above-average level of current income and reasonable long-term capital appreciation.

Fund Strategy: The fund invests mainly in common stocks of mid-size and large companies whose stocks typically pay above-average levels of dividend income and are, in the opinion of the purchasing advisor, undervalued relative to similar stocks. In addition, the advisors generally look for companies that they believe are committed to paying dividends consistently. Under normal circumstances, it will invest at least 80% of its assets in equity securities. The fund uses two investment advisors.

Fund Risk: Value stocks can perform differently than other types of stocks and can continue to be undervalued by the market for long periods of time. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Fund short term trading fees: None

Who may want to invest:

- Someone who is seeking the potential for long-term share-price appreciation.
- Someone who is comfortable with the volatility of large-cap stocks and value-style investments.

Footnotes:

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
- The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class's actual inception of 08/13/2001. These calculated returns reflect the historical performance of the oldest share class of the fund, with an inception date of 03/21/1988, adjusted to reflect the fees and expenses of this share class (when this share class's fees and expenses are higher.) Please refer to a fund's prospectus for information regarding fees and expenses. These adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the fund itself.

Vanguard Federal Money Market Fund Investor Shares

VRS Code: 845481

Fund Objective: The investment seeks to provide current income while maintaining liquidity and a stable share price of \$1.

Fund Strategy: The fund invests primarily in high-quality, short-term money market instruments. Under normal circumstances, at least 80% of the fund's assets are invested in securities issued by the U.S. government and its agencies and instrumentalities. The adviser maintains a dollar-weighted average maturity of 60 days or less and a dollar-weighted average life of 120 days or less. The fund generally invests 100% of its assets in U.S. government securities and therefore will satisfy the 99.5% requirement for designation as a government money market fund.

Fund Risk: *You could lose money by investing in a money market fund. Although the fund seeks to preserve the value of your investment at \$1.00 per share, it cannot guarantee it will do so. An investment in the fund is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The fund's sponsor has no legal obligation to provide financial support to money market funds and you should not expect that the sponsor will provide financial support to the fund at any time.* Additional risk information for this product may be found in the prospectus or other product materials, if available.

Fund short term trading fees: None

Who may want to invest:

- Someone who has a low tolerance for investment risk and who wishes to keep the value of his or her investment relatively stable.
- Someone who is seeking to complement his or her bond and stock fund holdings in order to reach a particular asset allocation.

Footnotes:

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
- Weighted average maturity (WAM) is the weighted average of all the maturities of the securities held in a fund. WAM for money market funds can be used as a measure of sensitivity to interest rate changes. Generally, the longer the maturity, the greater the sensitivity. WAM for money market funds is based on the dollar-weighted average length of time until principal payments must be paid, taking into account any call options exercised by the issuer and any permissible maturity shortening devices, such as demand features and interest rate resets. For bond funds, WAM can be used as a measure of sensitivity to the markets. Generally, the longer the maturity, the greater the sensitivity. The WAM calculation for bond funds excludes interest rate resets and only takes into account issuer call options if it is probable that the issuer of the instrument will take advantage of such options.
- For money market funds, weighted average life (WAL) is the weighted average of the life of the securities held in a fund or portfolio, and can be used as a measure of sensitivity to changes in liquidity and/or credit risk. Generally, the higher the value, the greater the sensitivity. WAL is based on the dollar-weighted average length of time until principal payments must be paid, taking into account any call options exercised by the issuer and any permissible maturity shortening features other than interest rate resets. For money market funds, the difference between weighted average maturity (WAM) and WAL is that WAM takes into account interest rate resets and WAL does not. WAL for money market funds is not the same as WAL of a mortgage- or asset-backed security.

Vanguard Total Bond Market Index Fund Institutional Shares

VRS Code: 844511

Fund Objective: The investment seeks to track the performance of the Bloomberg U.S. Aggregate Float Adjusted Index.

Fund Strategy: This index measures the performance of a wide spectrum of public, investment-grade, taxable, fixed income securities in the United States-including government, corporate, and international dollar-denominated bonds, as well as mortgage-backed and asset-backed securities-all with maturities of more than 1 year. All of the fund's investments will be selected through the sampling process, and at least 80% of its assets will be invested in bonds held in the index.

Fund Risk: In general the bond market is volatile, and fixed income securities carry interest rate risk. (As interest rates rise, bond prices usually fall, and vice versa. This effect is usually more pronounced for longer-term securities.) Fixed income securities also carry inflation risk and credit and default risks for both issuers and counterparties. Unlike individual bonds, most bond funds do not have a maturity date, so avoiding losses caused by price volatility by holding them until maturity is not possible. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Fund short term trading fees: None

Who may want to invest:

- Someone who is seeking potential returns primarily in the form of interest income rather than through an increase in share price.
- Someone who is seeking to diversify an equity portfolio with a more conservative investment option.

Footnotes:

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
 - The Bloomberg U.S. Aggregate Float Adjusted Index measures the total universe of public, investment-grade, taxable, fixed income securities in the United States-including government, corporate, and international dollar-denominated bonds, as well as mortgage-backed and asset-backed securities-all with maturities of more than 1 year.
 - The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class's actual inception of 09/18/1995. These calculated returns reflect the historical performance of the oldest share class of the fund, with an inception date of 12/11/1986, adjusted to reflect the fees and expenses of this share class (when this share class's fees and expenses are higher.) Please refer to a fund's prospectus for information regarding fees and expenses. These adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the fund itself.

Vanguard Total International Stock Index Fund Institutional Shares

VRS Code: 877800

Fund Objective: The investment seeks to track the performance of a benchmark index that measures the investment return of stocks issued by companies located in developed and emerging markets, excluding the United States.

Fund Strategy: The manager employs an indexing investment approach designed to track the performance of the FTSE Global All Cap ex US Index, a float-adjusted market-capitalization-weighted index designed to measure equity market performance of companies located in developed and emerging markets, excluding the United States. The fund invests all, or substantially all, of its assets in the common stocks included in its target index.

Fund Risk: Foreign securities are subject to interest-rate, currency-exchange-rate, economic, and political risks, all of which may be magnified in emerging markets. Value and growth stocks can perform differently from other types of stocks. Growth stocks can be more volatile. Value stocks can continue to be undervalued by the market for long periods of time. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Fund short term trading fees: None

Who may want to invest:

- Someone who is seeking to complement a portfolio of domestic investments with international investments, which can behave differently.
- Someone who is willing to accept the higher degree of risk associated with investing overseas.

**Footnotes:**

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
- The FTSE Global All Cap ex US Index is part of a range of indices designed to help US investors benchmark their international investments. The index comprises large, mid and small cap stocks globally excluding the US.
- The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class's actual inception of 11/29/2010. These calculated returns reflect the historical performance of the oldest share class of the fund, with an inception date of 04/29/1996, adjusted to reflect the fees and expenses of this share class (when this share class's fees and expenses are higher.) Please refer to a fund's prospectus for information regarding fees and expenses. These adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the fund itself.

Victory Sycamore Established Value Fund Class Y**VRS Code:** 865811**Fund Objective:** The investment seeks to provide long-term capital growth by investing primarily in common stocks.**Fund Strategy:** Under normal circumstances, at least 80% of the fund's assets will be invested in equity securities of companies with market capitalizations, at the time of purchase, within the range of companies comprising the Russell Midcap[®] Value Index. It may invest a portion of its assets in equity securities of foreign companies traded in the U.S., including American Depositary Receipts and Global Depositary Receipts ("ADRs" and "GDRs").**Fund Risk:** Value stocks can perform differently than other types of stocks and can continue to be undervalued by the market for long periods of time. The securities of smaller, less well-known companies can be more volatile than those of larger companies. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.**Fund short term trading fees:** None**Who may want to invest:**

- Someone who is seeking the potential for long-term share-price appreciation.
- Someone who is comfortable with value-style investments and the potentially greater volatility of investments in smaller companies.

Footnotes:

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
- The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class's actual inception of 01/28/2013. These calculated returns reflect the historical performance of the oldest share class of the fund, with an inception date of 08/16/1983, adjusted to reflect the fees and expenses of this share class (when this share class's fees and expenses are higher.) Please refer to a fund's prospectus for information regarding fees and expenses. These adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the fund itself.
- The Russell Midcap Value Index is an unmanaged market capitalization-weighted index of medium-capitalization value-oriented stocks of U.S. domiciled companies that are included in the Russell Midcap Index. Value-oriented stocks tend to have lower price-to-book ratios and lower forecasted growth values.

This document provides only a summary of the main features of the Retirement Savings Program and the Plan Document will govern in the event of discrepancies.

The Plan is intended to be a participant-directed plan as described in Section 404(c) of ERISA, which means that fiduciaries of the Plan are ordinarily relieved of liability for any losses that are the direct and necessary result of investment instructions given by a participant or beneficiary.
